

**KITCHEN
MEASURING
GUIDE**

MEASURE LIKE A PRO

Measuring is an important step,
but it doesn't have to be complicated.

Follow this simple guide to give us
the information we need to get started
on your project.

YOU WILL NEED

Tape measure 16'-25'

Pencil

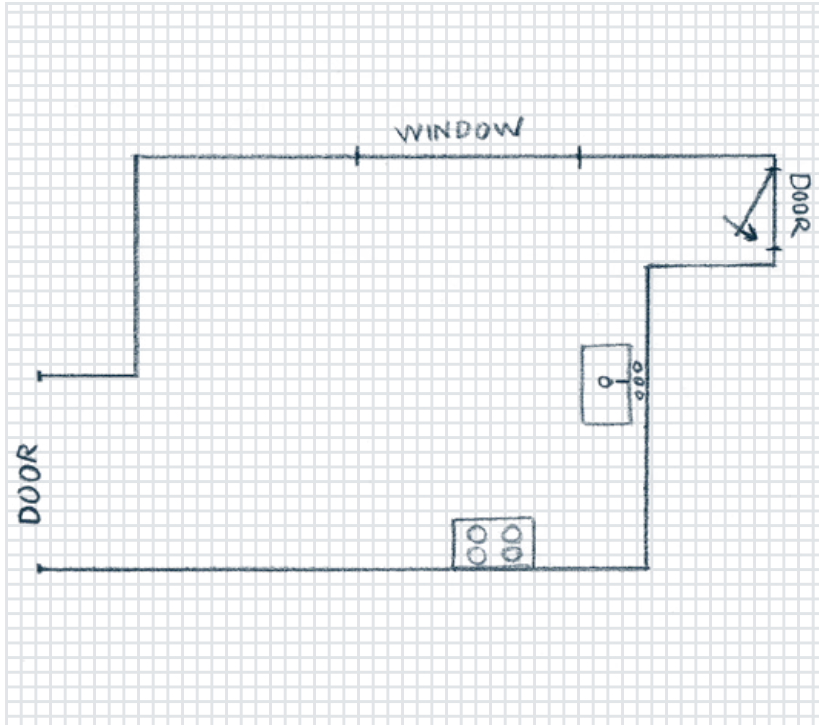

Paper Grid paper works best

Camera or phone

Ladder or step stool

Helper Optional

START WITH A SKETCH

Begin by drawing out the overall shape of the room, then add markings for all openings and obstacles, including:

Doors

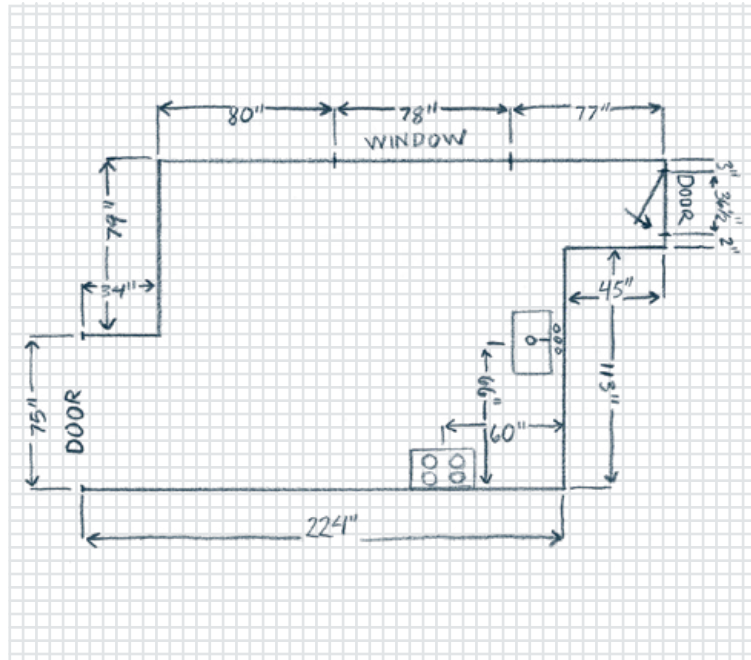

Windows

Electrical Outlets

Appliances

Other Obstacles - Like pipe chases or radiators

MEASURE YOUR SPACE

If possible, write down the model number of each appliance. You can usually find it on the inside of an appliance's opening or door.

Start in a corner and work clockwise, recording the following measurements on your drawing:

Length of each wall

Ceiling height - Measure in multiple places and use the lowest measurement

Width and height of each door and window
Include trim as part of the door/window

Distance from floor to items like windows, electrical outlets and soffits

Height, width and depth of appliances/fixtures

Distance from each item to the next wall

YOUR MEASUREMENTS

Windows	A	B	C	D
Width				
Height				
Floor to sill				

Ceiling Height _____ Soffit (W x H x D) _____

Doors	A	B	C	D
Width				
Height				

Appliance	Model (To Be Used)	Size (W x H x D)	Hinge Position
Refrigerator			
Sink			
Range			
Cooktop			
Wall Oven			
Dishwasher			
Microwave (built in?)			
Exhaust Hood			
Other			

TAKE PHOTOS

A picture is worth a thousand words.
Help your designer assess the space
by taking the following pictures:

Overall space

Each wall

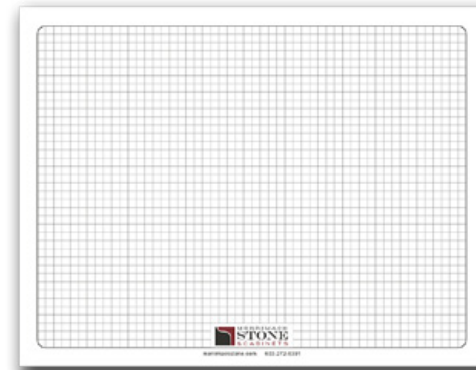

Unique areas or obstacles

Notes

NEXT STEPS

Once you are finished, double check the measurements and take a photo of your drawing.

Email us the photo you took, your measurements (pages 6 & 7) and you are one step closer to your new kitchen!

YOUR MEASUREMENTS

Windows	A	B	C	D	Ceiling Height	Culff (W x H x D)			
Width					Doors	A	B	C	D
Height					Width				
Floor to sill					Height				

Appliance	Model (To Be Used)	Size (W x H x D)	Hinge Position
Refrigerator			
Sink			
Range
